April. -:0:-

BY MISS H. R. HUDSON, April has scarched the winter land, And found her petrol flowers again; She kissed them to unfold their leaves,

She coaxed them with her sun and rain, and filled the grass with green content, And made the weeds and clover valu. Her fairies climb the naked trees, And set green caps on every stalk;
Her primmases peep bashfully
From borders of the guiden walk;
And in the reddening maple tops
Her blackthinks reads after a controller

Her blackbirds g is ip, sit and talk. She greets the patient evergorens,
She gets a store of ancient gold,
Gives tasseled presents to the breeze,
And teaches rivers songs of old,—
Then stakes the trees with stolen March

And laughs to hear the cuckoo scold. Sometimes, to fret the soler sun She pulls the clouds across his face; But finds a snow-drift in the woods,

winds.

Grows melk again and prays his grace; Waits till the last white wreath is gone, And drops arbuius in the place. Her erocuses and violets Give all the world a gay "Good year !" Tall trises grow tired or green, And get themselves a purple gear; And day bads that lie asleep On hill and field her summons hear.

She rocks the sately mearlow-cups;
The sunser's heart ancw she dyes;
She fills the dusk of deepest woods
With vague, sweet surshine and surprise,
And wakes the periwinkles up
To watch her with their wide blue eyes.

At last she deems her work is done,
And finds a willow rocking-chair, Dons spectacles of apple-buils, Kerchief and cap of almonds rare, And sits a very grandmother, Shifting her simshlae-needles there. And when she sees the deeper suns. That usher in the happy May,

That usher in the happy way, She sighs to think her lime is past And weeps because she cannot stay, And haves her tens upon the grass, And turns her face, and glides away. Attentic Monthty. To Holders of Government Bonds

Impegeliment,

The great State trial is rapidly drawing to a close. It is the greatest and most imposlog judicial proceeding in American history as I with but few exceptions in the history of the world. In any other country such a trial would be likely to produce anarchy and revolution, but in this our people look on calmly, weigh the evidence as though they themselves were the jurors, and when the verdict comes, whatever it may be, will quietly submit to the Judgment rendered. There has been a little talk of resistance, but it finds no encouragement even from the puriles most interested, who know too well that a second attempt at rebellion would be feeble and short lived Indeed.

At the commencement of the trial we purposed to give a somewhat detailed account of the proceedings, but soon found that they were dry and without interest. Now that the lestimony Is all in, we can truly say that nothing new has been brought forward on either side. The opposing coun sel have simply proved what everybody knew before, and the Schate is to pass upon the merits of the question, as the people have done long ago. So devoid of interest has been the details of the trial that even the special correspondents have given more attention, in many cases, to the galleries than to the court.

But the decision to be reached is one in which every American citizen is interested. We shall wait with great anxiety for the result which seems to be foreshadowed as against the President. It is certain that the politicans take it that Mr. Johnson is to be removed, since so many of them are exhibiting such unseemly haste in applying to "President Wmle" for positions under the new-administration. We are sorry that the office seekers could not wait and present a less disgreeeful spectacle than that which has been witnessed in the discusslons of the public prints, and elsewhere, in relation to the succession. Heirs in law to he decent, should wait until the sick mondies before engaging in a quarrel about his

Chief Justice Chase, The Cloveland Leader puts a very em-

phatic quicker upon the reports connecting Mr. Chase's name with the Democratic candidacy for President. It declares that it has authority for saying,"-that he would not take, nor for an instant consider a nomination from the Democratic Party for any office whatever." This ought to be decisive. The Lender adds, with equal emphasis, the gratifying statement that Mr. Chase has no political aspirutions, and "will withdraw bimself from active and partisan polities to the secener duties to which his presout high office assigns him." If he note upon this determination, and seeks distinction only in his present office, he can make a mark there which has been made by none of his predocessors since Marshall.

THE SCHOOL QUESTION IN IOWA,-A few months ago Alexander Clark, an intelligent and influential colored resident of Muscarine, was notified by the officers of the Independent School District of the city of Massatine that his children could not be permitted to attend the schools where white children are laught, but might avail themselves of the advantages afforded by a school set apart especially for colored youth. Mr. Clark appealed to the courts. Judge Richman, of the District Court, ordered a writ of mandamus to issue, compelling the School Board to admit the children of Mr. Clark to the public schools. The Board appealed to the Supreme Court, and that court has just decided that the Board of Directors of a school district have not the right to require colored, children, to attend a separate school; that all youth in the State of Iowa are equal before the law.

The Mexican news that "a Protestant Church has been opened in the Mexican Capital," may possibly give the impression that not until now has Protestant worship been suffered there, which would be errone ous. Within a week after Marshal Forey reached the capital, the right of holding Protestant worship was granted-a privilege which had not been accorded probably since Gen. Scott's occupation of it by our armies. Gen. Bazine, who was then in command of the city, protected the service by the bayonets of his troops, his own nephew being in command of the squad which took possession of a chapel for this purpose. Maximillian has also been credited with allowing religious teleration to Protestants. Doubtless freedom of worship is henceforth secure in Mexico, whatever party may come Into power.

LIFE AND ACCIDENT INSURANCE.-The benefits of this kind of insurance may be een in the facts connected with the late Erie railroad accident. Among the killed were persons whose policies amount to \$114,-000 which will now go to the families of the deceased. Of this amount the Railway passenger Assurance of Hartford has \$31,000; the Travelers' Insurance Company, \$5000; the Knickerbocker Life Insurance Company, \$20,000, and the Guardian Mutual \$5000.

As these companies are all perfectly relia-Me the losses will be paid without difficulty and the families of the deceased cared for.

RETRESCHMENT.-The Washington cor respondent of the Boston Advertiser, says the agents appointed by the Cleveland and Worcester Manufacturers' Convention, are in Washington prepared to urge retrenchment upon Congress as soon as impeachment Is out of the way. It is well known that feeding horses on clover hay, often makes them cough, but the why and wherefore may not be so generally known. From observation I have become satisfied that the manner of Jeeding hay to horse it the man. The forest part of the same horses is the caus. The usual custom is to let them draw it through the rack, thus strip-ping off the fine dust which address to the stalk, which being drawn into the lungs in respiration, produces the cough. The cure consists in removing the cause—that is, the rucks—and allowing the animals to take their rucks—and allowing the animals to take their food in their natural way. I have removed all of mine, and now feed my horses on the barn thou; having a breastwork sufficiently high for them to eat over. In this way they can be fed hay without raising dust, they get none under their feel, and the labor of cleaning out the manger is saved. Whetever is left is easily pashed out with a rake into the pard for the eather. The dust outlie hay will do the horses ao harm if taken into the stomach. Since making the improvement above mentioned in my feeling amarment above mentioned in my feeding appar-atus, I am not troubled with congoing horses. There is no patent on my invention; my brethren can use it freely.—Ex:

BERR DREISBACIUS

A dispatch dated Hart's Island 10 o'clock AND

last night, says that the Old Colony now lies on the east side of Hart's Island, at the extreme lower end. There are some heats engaged in taking off her freight, but hopes of saving the vessel are very toor. Her freight is being transferred to the boats which were brought down by the Agent of the line. The Old Colony lies in such a state that at any moment a wave may wash over her and create a confusion which may send her to pieces. She now rests on a dangerous reef, and the weather alone can determine whether she will be saved or not, The opinion of the bostmen and other naval folks, at Neptune Point, is that she will shortly go to pieces, and her present pasition bears this opinion out, but the agents

THE SOUTHERN STATES ELECTIONS. New York, April 23.

No official returns have yet been made of the Louisiana election. It is understood that 13 parishes give majorities against the Constitution and 6 or 8 for it. The result is onsidered very doubtful. In Georgia the contest is considered very

dose, the Conservatives being slightly ahead. In North Carolina the situation is about he same, the negroes in many instances havng voted the Conservative ticket.

In South Carolina the majority for the ew Constitution so far as heard from is 33.000 The election campaign is opening some-

what excitedly in Virginia.

THE GEORGIA ELECTION.

New York, April 23. The following is published here:

Macon, Ga., April 21. The constitution is undoubtedly defeated. Nothing can change the result except such frauds as will be too gross not to be pulpa ble. For that reason such frauds are not now expected. The defeat of the constitution is clear by a large majority. Gen Gordon has been elected Governor of Georgia by a surprising large majority. The counties which have the largest negro majorities haye all gone democratic.
